PRODUCT DESCRIPTION

Serial #: 91-242
220-3-60HZ

This extensive range of calenders has been designed for continuous printing of curtains, furnishing fabrics and non-wovens, but also limited runs of promotional materials, narrow fabrics and ribbons. All of these machines can be used additionally for heatsetting fabrics and "crush" effects, likewise for reactivating inks applied direct to textiles by digital plotters or screen printing machines.

PRODUCT DESCRIPTION

Serial #: 91-242
 220-3-60HZ

This extensive range of calenders has been designed for continuous printing of curtains, furnishing fabrics and non-wovens, but also limited runs of promotional materials, narrow fabrics and ribbons. All of these machines can be used additionally for heatsetting fabrics and "crush" effects, likewise for reactivating inks applied direct to textiles by digital plotters or screen printing machines.
